

Environmental Policy Statement

Enviraf Limited is aware of the potential environmental consequences of its work and therefore is committed to:

- minimise the impact of its activities on the local and global environment
- actively manage its significant environmental impact
- integrate environmental protection into every aspect of its business
- continuously improve the level of environmental knowledge .

The key points of Enviraf strategy to achieve this are:

- Follow relevant standards, good engineering practices and risk management principles to ensure that the Company's environmental protection activities are conducted responsibly.
- Communicate the Company environmental commitment to clients, customers and the public and encourage them to support it.
- Minimise harmful emissions through:
 - responsible use of power, raw materials and natural resources
 - avoiding unnecessary travel
 - responsible use of the car and selection of the transport means
 - use of biodegradable chemicals where possible
 - use of innovative environmental technologies and practices
 - use the best engineering and pollution prevention practices
- Actively promote environmentally effective use of energy, raw materials and waste management in the Company activities in engineering solutions, including management, design and operations. This includes waste avoidance, minimisation, recycling, applying circular economy principles, sourcing and promoting products' range both internally and amongst the Company's customers and suppliers.
- Assist customers to use products and services in an environmentally sensitive way.
- Meet or exceed all the environmental legislation that relates to the Company.
- Continuously improve the Company environmental performance.

Health & Safety Policy Statement

Enviraf Limited considers the health and safety of its employees, contractors and the general public to be its number one priority. The ultimate goal is to provide a healthy and safe environment free of accidents or injuries. The responsibility for safety extends from top management through contractors to the clients.
